Subject: Re: checked out Bunker Hill Confidential Folder request

MK-

This message is to follow up on Congressman's Chenoweth-Hage's 8/19/00 request to check EPA files for mine contingency plan related documents. Absent the file below in Ted's possession, I had the entire Bunker Hill Site File searched for the following keywords at your request:

"Bunker Hill Mine"
 "Mine Contingency"
 "Mine Contingency Plan"
 "Robert Hopper"
 "Bob Hopper"

And went through all flags by hand. I came up with:

- memo from Bill Hudson dated 12/10/97, which has already been provided;
- memo from myself to Hudson, Stoupa, 8/29/95 directing the above memo to be provided (don't know if this was provided); and
- memo to you from Hudson and Stephanoff regarding costs to improve mine to a functional condition to treat minewater, 8/14/98 (don't know if this was provided).

Let me know if you have any questions.

S

Subject: Re: checked out Bunker Hill Confidential Folder request

Hi Ted, I was hoping you could check to see if you had handy a confidential Bunker Hill Site File folder 13.14.5.1.1. Sean Sheldrake requested to see a document, and SDMS noted that you last checked it out. Sean's extension is x1220. Please let me know if you don't have it. It is not on our Site File shelf.

Thanks,

Marshall M. Buelna
